PAWPOLLER · GETTING STARTED GUIDE

Weasyl

Track your Weasyl stats with an API key (no password stored).

Analytics + Posting | Easy Setup

Open this guide as a PDF ↗

WHAT YOU'LL NEED

- A Weasyl account

STEP BY STEP

1. **Open your API keys**
   On weasyl.com go to **Settings** → **Manage API Keys**. Weasyl API keys ↗

2. **Create a key**
   Generate a new API key and copy it.

3. **Connect in PawPoller**
   Paste the API key (and your Weasyl username) in Settings.

WHERE IT GOES IN PAWPOLLER

Settings → Weasyl → API key (+ username)

KEEPING IT ALIVE

Never, unless you delete the key. Generate a new key on Weasyl and paste it in.

GOOD TO KNOW

- An API key is safer than a password — it can be revoked without changing your login.
- Journals: Posts → **New journal** posts a Weasyl journal with the same key, and can edit or remove it later.
